# New! OVER-SIZED Vintage Style Light Bulbs for Custom Lighting

New Bulbs - New Looks! Along with some old favorites here, B & P Lamp introduces **New Industrial Style** light bulbs that borrow from those used in Mid-Century factories and offices. They are particularly useful in creating unique socket-cord pendant fixtures. Bulb **47209**, however, is also useful in improving a glass shade pendant in that it will slip inside most 4" fitter, glass pendant shades, where it helps to extend the filament down below the shade holder for a better appearance. Style **47205 & 47206** are a great size for single bulb pendant fixtures. All have amber tinted glass, and are rated 3000 hrs, 2200k, 120V, E26, & come in decorative boxes. **ASSORT Light Bulbs Only Please**

**SIZE COMPARISON**  
to regular Edison-type bulb  
(our #47094,
